TONY AIKENS
CHIEF DEPUTY

May 10, 2012

SafeTech
9000 Executive Park Drive
Suite A250
Knoxville, TN 37923

To Whom It May Concern:

I am proud to say that I am a believer that the SAF - T-Round manufactured by SafeTech, Inc. can, will, and has most likely already saved a life or at the very least prevented a tragic accident from happening.

I was taught at an early age, and have been continuously trained throughout my law enforcement career, to assume that a firearm is always loaded, period, end of story. While most of us practice this rule religiously, there are still some who, for whatever reason, have complete memory failure (or simply are so arrogant that it makes them ignorant), and therefore have accidentally discharged a firearm. Unfortunately, I have responded to far too many of these type accidents that end in devastation, which could have been completely prevented.

There are only two ways to be 100% sure that the firearm is not immediately ready for discharge. One is to visibly inspect the firearm and the other is the use of a Saf-T-Round. That is why we have installed Saf-T-Rounds in all of our duty shotguns and patrol rifles at this Sheriff's Office.

Best Regards,

A handwritten signature in cursive script that reads "Tim W. Guider".
